

## THE SCIENCE BEHIND BIOMAX WHEY TRUE PROTEIN

Maximuscle PROMAX contains BioMax Whey True Protein, a unique blend of whey protein, which is rapidly digested by the body providing a fast uptake of protein, stimulating muscle development and growth.

Typically, food protein concentrations are theoretically calculated based on the total nitrogen content, but this can cause some variances in the derived protein level. Maximuscle have gone one step further by validating the protein concentration in PROMAX by comparing the weight of the individual amino acids with the calculated factored amount, qualifying this as BioMax Whey True Protein. We guarantee that every serving of PROMAX provides 25g of high-quality BioMax Whey True Protein to help support the growth and maintenance of muscle.

## PROMAX RESTORE

We guarantee that every serving of PROMAX provides 25g of high-quality BioMax Whey True Protein to help support the growth and maintenance of muscle.

To develop or increase muscle mass you need more protein in your daily diet. PROMAX is a low fat, low sugar, protein-rich shake containing 7g naturally occurring Branched Chain Amino Acids (BCAAs) and naturally occurring glutamine.

### BENEFITS OF PROMAX:

#### BCAAs & GLUTAMINE

Maximuscle's PROMAX protein formula naturally provides 7g of the Branched Chain Amino Acids (Leucine, Isoleucine and Valine) in every serving. BCAAs are considered essential amino acids as the body cannot produce them itself and are required in our diets. Every serving also contains naturally occurring glutamine, the most abundant amino acid in the muscle.

#### MAGNESIUM

Every serving of PROMAX contains a source of magnesium, which contributes to muscle function and reducing tiredness and fatigue.

#### LOW IN FAT, SUGAR & SALT

Every serving of PROMAX is low in fat, sugar and salt.

#### SCREENED & EFFECTIVE

Every batch of PROMAX is screened for banned substances and is registered with the Informed-Sport programme.

**INGREDIENTS:** BioMax Whey True Protein (92%) (whey protein concentrate (milk), whey protein isolate (milk), hydrolysed whey protein (milk)), cocoa powder (5%), flavouring, magnesium citrate, thickener (cellulose gum), sodium chloride, sweeteners (sucralose, acesulfame K).

### NUTRITIONAL INFORMATION

Typical Values	Per 100g	Per 35g (Serving)

**NOTICE:** Chocolate flavour high protein food supplement drink mix containing magnesium with sweeteners. Food supplements should not be used as a substitute for a varied and balanced diet and a healthy lifestyle. Do not exceed the recommended daily intake. Keep out of reach of children. This pack contains 32 servings. Suitable for vegetarians. For best before end see back of pack. Made in the EU.

**Storage Instructions:** Keep tightly sealed in a cool, dry place and away from direct sunlight. Natural settling of this product will occur during transport. This product is packed by weight, not by volume.

### HOW TO SERVE

For one serving, add one scoop of powder (35g) to 200ml of water, shake to blend and enjoy!

### HOW TO USE

ON THE DAYS YOU TRAIN  
1 serving after training +  
1 serving either mid morning/afternoon

ON THE DAYS YOU DON'T TRAIN  
1 serving mid morning or  
1 serving mid afternoon
