

THE SCIENCE BEHIND BIOMAX TRUE PROTEIN

Maximuscle PROMAX LEAN contains 25g BioMax True Protein, a unique blend that is fast acting with a sustained release of protein, which gets to work fast and lasts for hours.

Typically, food protein concentrations are theoretically calculated based on the total nitrogen content, but this can cause some variances in the derived protein level. Maximuscle have gone one step further by validating the protein concentration in PROMAX LEAN by comparing the weight of the individual amino acids with the calculated factored amount, qualifying this as BioMax True Protein. We guarantee that every serving of PROMAX LEAN provides 25g of high-quality BioMax True Protein to help support the development of lean muscle.

PROMAX LEAN

At Maximuscle we understand what it takes to achieve a great physique. Designed with BioMax True Protein, our unique blend provides high-quality protein to support your lean muscle goals. PROMAX LEAN is a high protein, low fat and low sugar strain to complement your daily diet. Plus it also contains L-carnitine and green tea.

BENEFITS OF PROMAX LEAN:

GREEN TEA & L-CARNITINE

Each serving is packed with green tea, which is derived from the plant, *Camellia sinensis*. Each serving also contains 400mg L-carnitine, a naturally occurring amino acid which plays a key role in the transport of fatty acids to the mitochondria of the cell.

LOW IN FAT & SUGAR

PROMAX LEAN is ideal for individuals who are looking for a great tasting product that is high in protein but also low in fat and low in sugar.

CAFFEINE

Every serving of PROMAX LEAN is formulated with 80mg caffeine to increase your focus by making you feel more alert and enhancing concentration.

SCREENED & EFFECTIVE

Every batch of PROMAX LEAN is screened for banned substances and is registered with the Informed-Sport programme.
